Subject: passaic releases

hi carolyn -- here's a chronology of "recent" press releases we've done on the passaic project:

in dec '05, we began a test dredging project on the passaic -- this was an outdoor event, and the visual was dredging in the river -- this may be the event you were recalling earlier:

in jan '09, we announced the cleanup plan for "phase 1":

in june '08, we announced the settlement between EPA, occidental, and tierra:

finally, in aug '11, we announced the start of construction for "phase 1" dredging -- monday's event will be the press event component of that announcement, and we will put out another press release in conjunction -- the aug '11 release, however, describes what you'll see on monday.

please let me know if you have any questions on this -- thanks!
